

CLARK

*The Urban Legend*

\*\*\*\*\*

**The design hotel of Buda  
Hotel Clark Budapest, has become a five-star hotel**

The place where the view is breathtaking, the location is historic, the Buda Castle is within reach, the lobby is an imprint of the design and the legendary stories related to the place. Where the lion is not only part of the brand, but also pervades the spirit of the hotel, in a word: majestic. From the beginning of December, it is also officially five-star!

"We are happy to share on behalf of the entire Clark team that we have reached a milestone! It fills us with pride that, from the beginning of December, Hotel Clark Budapest also belongs to the iconic club of 5-star hotels in our capital and on the Buda side. The five-star rating symbolizes everything that Hotel Clark Budapest and its team have stood for since the beginning. Our goal at all times is to become a defining point of the city not only for international but also for domestic guests. Our hotel is not only an exceptional location with a magnificent panorama in the heart of the capital, but also a symbol of perseverance - which we build together, with professional humility and dedication every day." - said István Lukács, hotel manager of Hotel Clark Budapest.

Hotel Clark, located in the symbolic epicenter of Budapest, at the "0" kilometer stone, has always been a culturally charged and trendy highlight of the domestic tourist life. A corner of Buda where hospitality, design and experiences meet. Just think of the breakfasts eaten on the private terrace of the rooms on the seventh floor, the spacious comfort provided by the new luxury suites, the welcome champagne that greets arriving guests, the unparalleled view from the snow-white bathtub, or the iconic and powerful lion gate.
